the opponent's responses and opportunities that emerge on the board. Finding the plan in a Larsen game often means tracing this evolution, understanding not just his initial intentions but also how he adjusted those intentions based on the game's flow. This contrasts sharply with static, pre-planned strategies, where deviations are treated as failures.

Key Elements of Larsen's Style:

- **Prophylactic thinking:** Larsen was a master of anticipating his opponent's plans and preventing them through subtle, yet potent, moves. He excelled at identifying weaknesses and exploiting them before they became critical.
- **Piece activity:** He prioritized the activation of his pieces over material gains, recognizing that a well-placed piece could often be more valuable than a pawn or two. Finding "the plan" often involves identifying the key pieces and how Larsen orchestrated their synergistic action.
- **Initiative and Tempo:** Larsen valued the initiative, relentlessly pressing the attack and forcing his opponent to react. He understood the importance of tempo – gaining an advantage by controlling the flow and rhythm of the game. His games demonstrate a mastery of tempo manipulation, making it crucial to carefully analyze the time and move order in order to understand his plans.
- **Unusual Opening Choices:** While not neglecting classical openings, Larsen was known for his willingness to experiment and surprise his opponents with less common variations. This doesn't mean his openings lacked a plan; rather, the plan was often more flexible and less rigidly defined compared to some of his contemporaries.
